#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1-16, the term "money changer" in the preambles of the claims is not commensurate with the elements in the bodies of the claims.

Regarding claim 3, the term "is smaller than" (line 4) compares the coin tube wall thickness with itself.

Appropriate correction is required.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-4 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Patent Number 4,413,718 by Dean (hereinafter "Dean") view of Patent Number 6,044,952 by Haggerty et al (hereinafter "Haggerty"). The coin detecting apparatus

Art Unit: 3653

disclosed by Dean incorporates coin tubes 64, 66 and 68, emitting diode 84, photo diode 86, prism 94 and coin testing circuitry 23 that read on the Applicant's coin tubes, light-emitting element, light-receiving element, prism and control circuit, respectively. Although Dean fails to disclose prism 94 as being integrally formed with tubes 64, 66 and 68 such a coin tube prism configuration is well known in the art.

Haggerty teaches a currency processing apparatus that incorporates prism 60 that is integrally formed with housing 7 that bounds currency passageway 28 (see Figure 4). It would have been obvious to one of ordinary skill in the art at the time the invention was made to incorporate the integrally formed prism 60 of Haggerty into the coin detecting apparatus of Dean to provide an effective and economical means of attaching said prism onto the coin tubes.
